Tyre Size:	7.50R16
Date In Service:	11/01/1991
Mileage From:	46,102km
Condition From:	Excellent

UNDER DEPOSIT Increasingly rare, Land Rover Tithonus  
110 Left Hand drive, direct from service with the MoD.

Each Tithonus Land Rover was individually selected after meeting a set standard of quality and then fully refurbished by the MoD as part of the British Army LEP (life extension programme)

Project TITHONUS was the contract awarded for the upgrade of the MoD Land Rover Defender fleet. The project included front seating, rear seating and anti-vibration acoustic matting. In addition to this, each vehicle has had full updated roll over protection including an additional external roll bar fitted. Wolf style composite hard top, Chequer plate reinforcement to the bonnet, wings and sills and Wolf Heavy duty wheels.

According to Defence Equipment & Support, Project Tithonus is a "mid-life improvement" to currently serving Land-Rover Defenders. The project was to extend the overall service life of the Land-Rovers by 10 years, from 20 to 30 years.

The name Tithonus comes from Greek mythology where, Zeus granted Tithonus immortality. However, eternal youth was not part of the package; hence, he would live forever, but get older and older.

Features  
include:

2.5ltr NAD engine

LT77 5 speed gear forward and one  
reverse gear box
