UNDER OFFER Just released from service with a regional Ambulance Service, Right Hand Drive (RHD) Mercedes Sprinter 519Cdi incident support vehicle with very low mileage in excellent condition throughout. Procured as a Command Support Unit to be dispatched to major incidents, such as large-scale flooding, chemical incidents and serious transport collisions and intended to act as a base for incident commanders, managing multiple resources at the site of an incident. The vehicle can accommodate up to five staff, including ambulance and medical incident commanders, dispatchers and a loggist. It features: 2987cc V6 190hp Turbo Diesel; 6 Speed Manual Gearbox; Power Steering; Electric Windows; Electric Mirrors; Air conditioning; Fitted desks and storage for incident support; Genisys internal control system; Fold up table; Sliding compartment internal door; Internal lighting; 230v power sockets; Dometic air conditioning unit; Onboard water heater; Privacy shutters to cab; Clark PT600 pneumatic Mast; Chassis fitted 4 point stabilising jacks; Incident information monitor (Panasonic TV); Separate body electrical system and battery supply; Fuse box for onboard systems; Onboard Cummins Onan 11.5Kva Generator. Dimensions: Height: 3600mm; Width 2020mm; Length 4610mm; Width over mirrors 2440mm. Weights: Maximum permissible gross vehicle weight 5000kg; Permissible towing weight 7000kg; Maximum permissible front axle load 2000kg; Maximum permissible rear axle load 3500kg. UK Road registered on UK V5 with MoT until February 2024. Suitable for use in its current configuration or ideal for conversion to a range of alternative uses, such as airfield use, security command vehicle, drone support, events control, camper van, coffee bar, training vehicle etc. Please note: Only approved buyers may purchase this vehicle in its current configuration. This vehicle can be purchased by suitable Charities, CQC Certified Companies, Support Services contracted to the NHS, Registered end user businesses (e.g. Airfield operators, racetrack etc) or recognised ex-emergency service re-sellers with trading history. Photographic/company ID maybe required prior to vehicle release. If you are not a bona fide purchaser, the vehicle can be purchased, but will be de-commissioned for blue light functions prior to release.
